September 7, 1990

Mr. Paul W. Dolle  
Dolle Electric  
Route 2, Box 300-A  
Rogers, AR 72756

Dear Paul:

September 4, 1990 was an exciting day for J. B. Hunt Transport, Inc. We occupied our new corporate office building on a schedule set over one year earlier.

You and your dedicated personnel are a big reason that we met the originally-established schedule. Believe me, I know that the construction changes probably affected you more than any other subcontractor. You absorbed these changes with minimum effect on the completion time and treated us fairly in their pricing.

Our people are so impressed with the UPS system and standby generators, all of which was wired by Dolle Electric. This wiring installation is a work of art and will be a major attraction when we show visitors our new building.

I'm looking forward to a continuing relationship between J. B. Hunt and Dolle Electric.

Sincerely,

A handwritten signature in black ink that reads "J.B. Hunt". The signature is written in a cursive, flowing style. Below the signature, the name "J. B. Hunt" and the title "Chairman" are printed in a standard, black, sans-serif font.

J. B. Hunt  
Chairman
