Mr. Paul Dolle
Dolle Electric
Route 2, Box 300A
Rogers, AR 72756

Dear Mr. Dolle:

This is just a note to thank you for your fine efforts to provide our Wal-Mart folks a very functional and impressive auditorium and cafeteria at our General Office. Your special services are proof of your unusual talents, and we thank you for sharing them with our Wal-Mart Company for our enjoyment and usefulness.

The auditorium with its comfortable seating, the finely-tuned audio/visual system, and the effective design of the overall unit is certainly outstanding.

The cafeteria, too, is accommodating, attractively furnished, well equipped with a beautiful stainless steel kitchen and serving area, lighted properly, and finished perfectly.

From the blue carpeting that blends with the blue-gray walls and tile floors to the glass front, skylights, ceiling and roof, the entire facility is one that all of us are mighty proud of and will benefit from for many years to come. We appreciate your part in the construction of this important addition to our corporate headquarters in Bentonville, and we commend you for a job well done! Best wishes and, again, thanks from all of us at Wal-Mart.

Very truly yours,

Sam Walton
